Sneak Peek Bulletin PXC-M3 & 10 DC-DC Converters

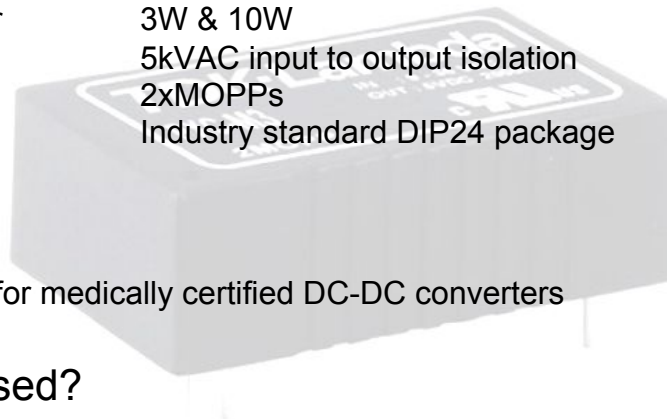

Quick Facts:

- * **Medical certified**
- * **Industry standard DIP24 package**
- * **5kVAC input to output isolation**

What are they?

3W and 10W Medical & ITE certified DC-DC Converters

- Input voltage 4.5-9V, 9-36V or 18-75VDC
- Output Voltages 3.3V, 5V, 12V, 15V, 24V, +/-12V, +/-15V
- Output Power 3W & 10W
- Features 5kVAC input to output isolation
2xMOPPs
Industry standard DIP24 package

Why?

- Market need for medically certified DC-DC converters

Where are they used?

- Medical
- Communications
- Test & measurement
- IGBT gate drives

When?

- Samples April 2015
- Production July 2015 (stock)

Who do I contact for samples?

- Complete sample request form and send to David Bristol
